The image features a teal background densely covered with small, square, light-colored sticky notes. A large, central pile of these notes is stacked high, with some notes protruding from the sides. A single red pushpin is visible at the base of this pile, securing it to the surface. The overall effect is one of overwhelming information and fragmentation.

# Information Fragmentation

# Social Media as Information Source

“Every second, on average, around 6,000 tweets are tweeted on Twitter, which corresponds to over 350,000 tweets sent per minute, 500 million tweets per day and around 200 billion tweets per year”

***Twitter Usage Statistics***, Internet

???

# Thesis Questions

How does information fragmentation change the way we construct meaning and ultimately effect the quality of our lives?

Can a multimedia art piece inspire gallery visitors to experience and simultaneously contemplate the phenomenon of information fragmentation?
